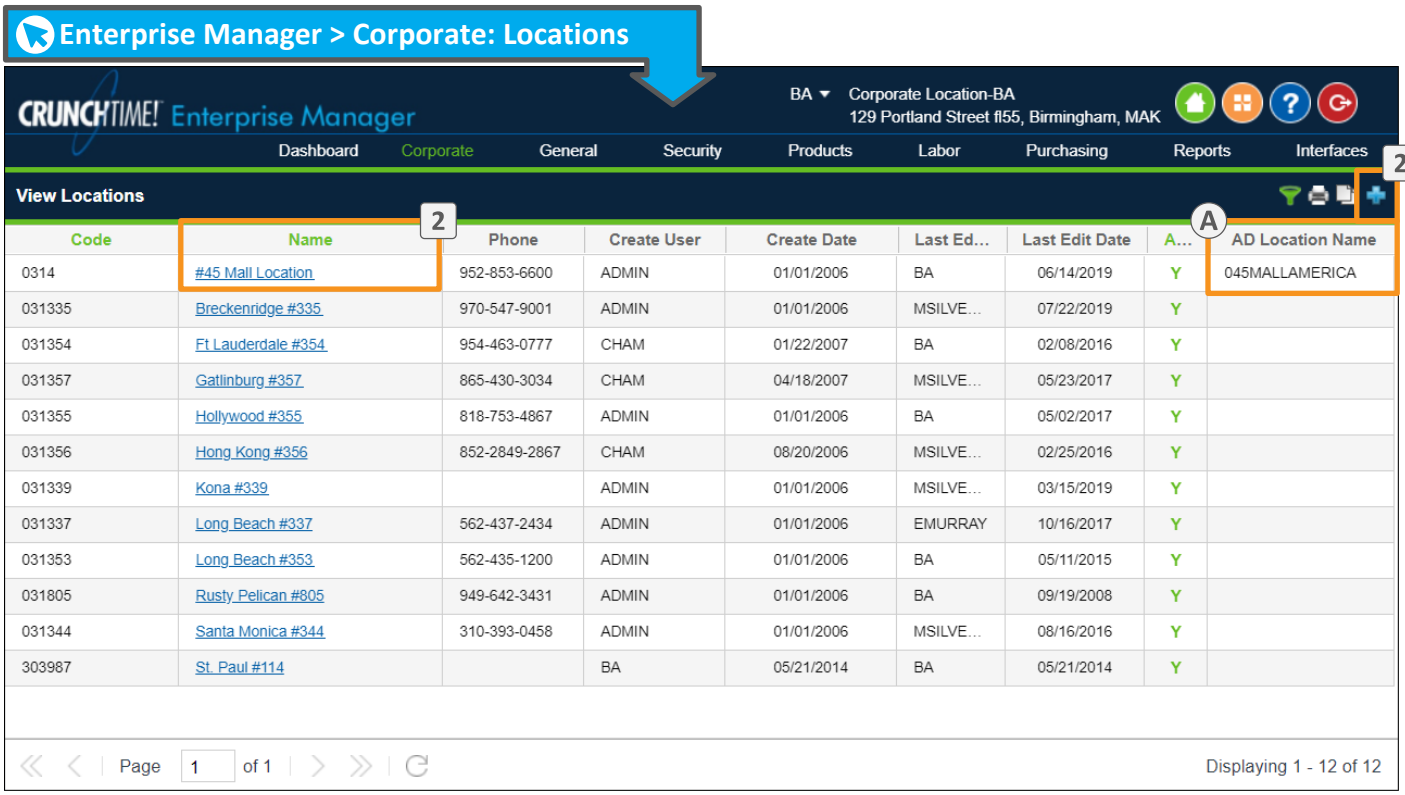
Implementation Steps

Location Setup in Enterprise Manager

How It Works



1. From the Corporate menu, select *Locations*.
   - (A) In the *Locations* summary screen, each Location that has a counterpart in the client AD will have the counterpart name displayed in the *AD Location Name* column.
2. To create a new Location, select the *Add* (blue Plus) button OR to edit an existing Location, select the hyperlink in the *Name* column for the appropriate location.
